EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Change the title to –Semiconductor integrated circuit device including magnetoresistive effect device and method of manufacturing the same--.

Rejoin claims 2 and 5 (status “withdrawn,” yet dependent on allowed claim 1).

Cancel claims 7-12 (withdrawn as being drawn to a non-elected species).

Allowable Subject Matter

2. Claims 1-3, 5-6 and 13-21 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 6, The meaning of “coincides with the planar shape of the crossing portion between the first wiring and the second wiring” as compared to “coincides with the (planar) *shape of the first wiring*” was not originally evident upon initial examination; the term “shape” is not merely “the shape of a plane,” since each claimed “shape” also “*coincides*” (i.e. the perimeter of each claimed “shape” substantially matches up with a perimeter of another recited planar shape).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
